Aim -

ICISDG is aiming at illustrating the potential of research communities for achieving the Sustainable Development Goals which were declared by the United Nations in 2015 as binding for 193 nations globally addressing under developed, developing and developed countries.

Objective -

ICISDG theme parleys about how research community must and can play a significant role through the SDGs which should be achieved as projected in 2030 through theme The Salutogenic SDG's.

ICISDG proposes to give an overview of some of the existing efforts along with innovative resolutions, ideas and research in this area and it's written post conference report as an appeal to professionals, scientists and government organizations globally to take a holistic approach on the derived data.

ICISDG activity desires to monitor and generate the effects of research work on the SDGs by research community until now and update it in report format and proceedings.

ICISDG will be definitely an enabler to identify more efficient resource handling, edification, societal framework and business operations reinforcing economy which is critical success factor for achieving the SDGs. ICISDG is an ideal opportunity for the young professionals to voice their views, offering fresh perspective & join the world wide movement of ensuring Sustainable Future by bridging the gap with the policy makers, academicians and professionals.

Publication opportunities in Peer-reviewed conference proceedings with ISBN and selected few in Scopus indexed journals.

Theme for Presentation

The Salutogenic SDG's translates to a futuristic dream where well being of the planet has been given the importance in the moment of truth. The present at whatever state it may be at whatever dot on the map of globe, we are bound to the responsibilities for our future generations and as the famous quote has it "Precaution is better than cure". Healthy planet should be a journey of generations and moral duty of every individual now, whereas what we are observing its only outreach is with the rightly educated and aware citizens that too at infrequent and inactive concentrations. The theme here tries to command mechanism that should support the continuum of wellbeing of the planet and avoid the dilemma between wellbeing, tension and coping. Damaging outcomes can be barred by social sustenance, knowledge, experience, intellect, resources and ethnicities along with sense of coherence. Simple toolkit is ability of managing the stresses comprehensibly by the obviousness and sense of understanding. Profoundly adopting the contentness indicators of SDG's with meaningful actions and to explore real purpose behind the existence of life as a sustainability patron. The 17 Sustainable Development Goals (SDGs) to transform our world through the Salutogenesis:

- GOAL 1: No Poverty
- GOAL 2: Zero Hunger
- GOAL 3: Good Health and Well-being
