Theme for Presentation – The G20 SDGs

Aligning the G20 Agenda with the SDGs: A Win-Win Strategy for People and Planet. The G20 is a group of 20 major economies that account for about 80% of global GDP, 75% of global trade, and 60% of global population. The G20 plays a critical role in shaping the global agenda for economic cooperation and development. The 2030 Agenda for Sustainable Development is a universal framework of 17 goals and 169 targets that aim to end poverty, protect the planet, and ensure peace and prosperity for all. The 2030 Agenda is an integrated and indivisible agenda that requires collective action and partnership from all stakeholders. The G20 and the 2030 Agenda share a common vision of building a more inclusive, sustainable, and resilient world. By aligning their policies and actions with the SDGs, the G20 can leverage their influence and resources to accelerate progress on the global goals, while also advancing their own national interests and priorities.

The G20 has also identified several cross-cutting issues that are critical to achieving the SDGs:

- Gender Equality
- Innovation
- Private Sector Engagement
- Science, Technology, and Innovation

By focusing on these areas and issues, the **G20 hopes to achieve One Earth • One Family • One Future.**

The 17 Sustainable Development Goals (SDGs) to transform our world through the G20:

GOAL 1: No Poverty

GOAL 2: Zero Hunger

GOAL 3: Good Health and Well-being

GOAL 4: Quality Education

GOAL 5: Gender Equality

GOAL 6: Clean Water and Sanitation

GOAL 7: Affordable and Clean Energy

GOAL 8: Decent Work and Economic Growth

GOAL 9: Industry, Innovation and

Infrastructure

GOAL 10: Reduced Inequality

GOAL 11: Sustainable Cities and

Communities

GOAL 12: Responsible Consumption and

Production

GOAL 13: Climate Action

GOAL 14: Life Below Water

GOAL 15: Life on Land

GOAL 16: Peace and Justice Strong

Institutions

GOAL 17: Partnerships to achieve the Goal.

The G20 has already taken some steps to align their agenda with the SDGs, such as adopting the G20 Action Plan on the 2030 Agenda for Sustainable Development. However, there is still room for improvement and innovation in integrating the SDGs into the G20 agenda. The G20 can adopt a more holistic, coherent, and consistent approach to aligning their policies and actions with the SDGs across all sectors and domains.

Aim –

ICISDG is aiming at illustrating the potential of research communities for achieving the Sustainable Development Goals which were declared by the United Nations in 2015 as binding for 193+ nations globally addressing under developed, developing and developed countries.

Objective -

ICISDG theme parleys about how research community must and can play a significant role through the SDGs which should be achieved as projected in 2030 through theme The G20 SDG's.

ICISDG proposes to give an overview of some of the existing efforts along with innovative resolutions, ideas and research in this area and it's written post conference proceeding report as an appeal to professionals, scientists and government organizations globally to take a holistic approach on the derived data.

ICISDG activity desires to monitor and generate the effects of research work on the SDGs by research community until now and update it in report format and proceedings. ICISDG will be definitely an enabler to identify more efficient resource handling, edification, societal framework and business operations reinforcing economy which is critical success factor for achieving the SDGs. ICISDG is an ideal opportunity for the young professionals to voice their views, offering fresh perspective & join the world wide movement of ensuring Sustainable Future by bridging the gap with the policy makers, academicians and professionals.

Publication opportunities in Peer-reviewed conference proceedings with ISBN & selected few in ISSN IJISDG journal.
